SUMMARY

Entry-Level Software Developer skilled in building responsive web interfaces using HTML, CSS, JavaScript, and React, with additional experience in Python and machine learning concepts. Developed multiple deployed projects including a Fake News Detection model and business websites, demonstrating practical problem-solving and implementation skills. Strong foundational knowledge in Git workflows, cloud hosting, and UI development, with a proven ability to learn quickly and contribute in collaborative environments.

TECHNICAL SKILLS

- **Core Skills (Confident):** HTML, CSS, JavaScript, Responsive UI Design, Git & GitHub, cPanel Hosting, Chrome DevTools
- **Developing Skills (Growing Competence):** React, Python, API Integration, Component-Based Frontend Architecture
- **Machine Learning (Entry-Level):** Text Preprocessing, Tokenization, Model Training & Evaluation (NLP)
- **Tools & Platforms:** VS Code, Render, Railway, Vercel, Git Branching & Pull Requests Workflow
- **Soft Skills:** Analytical Thinking, Team Collaboration, Clear Communication, Fast Learning

PROJECTS

1. **Portfolio Website**
   Designed and deployed a personal developer portfolio showcasing skills and project work.

   - Implemented responsive layouts optimized for mobile and tablet screens.
   - Structured clear navigation and reusable UI sections for ease of browsing.
     GitHub: https://github.com/CodingwithSam606/portfolio-template

2. **Netflix UI Clone**
   Recreated Netflix homepage layout to improve UI recreation and layout precision.

   - Practiced media queries, visual hierarchy, and grid/flex alignment.
     GitHub: https://github.com/CodingwithSam606/Netflix-clone

3. Tusam Bakery Website
   Responsive business website displaying products and brand information.

   - Improved mobile accessibility and user browsing experience.
     GitHub: https://github.com/CodingwithSam606/bakery-template

4. Fake News Detector (Python + ML)
   Text classification model to differentiate real vs. fake news articles.

   - Performed dataset cleaning, text vectorization, feature extraction, and model evaluation.
   - Demonstrated understanding of NLP workflows and model performance tuning.
     GitHub: https://github.com/CodingwithSam606/fake-news-detection

EXPERIENCE

Industrial Training (SIWES) — Alliance Consulting & Digital Solutions
April 2024 – October 2024

- Developed and modified frontend components using HTML, CSS, JavaScript, and React.
- Created a **Contact Us** page, improving website navigation and user access to support services.
- Improved UI consistency by restructuring layouts and refining spacing for better readability.
- Assisted with web deployment and update management using **cPanel**.
- Collaborated with development team members on feature discussions and testing workflows.

EDUCATION & CERTIFICATIONS

EDUCATION
- B.Sc. Computer Science and Mathematics **Caleb University, Lagos** 2021 – 2025

Certifications
- web Development (HTML, CSS, JavaScript) — Coursera, 2025
- Cloud Computing — Coursera, 2024
- Data Analysis — Pearson, 2025
- CSS Certification — LinkedIn Learning, 2024
